Patent Application

Applicant : Jerome Daniels
Application No. : 10/773,884
Filed : 02/06/2004
Title : MOBILE WATER DEVICE
Technology Unit : 3618
Examiner : Phan, Hau Van
Attorney Docket No. : 338p-Daniels

Dr. Hau Van Phan
United States Patent and Trademark Office

SUMMARY AND REQUEST FOR RECONSIDERATION OF FINAL REJECTION

Dear Dr. Phan;

The applicant sincerely thanks the Examiner for his efforts in this matter. The applicant thanks the Examiner for taking the time to speak to applicant's counsel by telephone today, March 29th, 2006. This summary and request for reconsideration is based entirely upon today's telephone conversation between the applicant's attorney and the Examiner. In accordance with MPEP 713.04, the applicant can provide a transcript of the conversation if requested, and the substance is provided below.

INTERVIEW

During the telephone interview, the Examiner and the applicant's attorney discussed the following issues:

- The Examiner located additional prior art today which is not yet of record in the case.
- The present invention concerns a "thermoelectric liquid heat exchanger" using the Peltier-Seebeck effect whereas the Brilanchik patent (US Patent No. 5497918) concerns a liquid-to-liquid heat exchanger using different physical principles and structures. The Brilanchik patent had been the basis of previous rejections of the claims. The Examiner requested the attorney send this document mentioning that the Brilanchik patent did not deal with thermoelectric heating and cooling.
- The Examiner and applicant's attorney agreed that the present grounds for final rejection is premature and the final rejection will be withdrawn. The Examiner anticipates citing prior art not yet of record in a new office action, and the applicant anticipates responding to that office action at that time.

REQUEST FOR RECONSIDERATION OF FINAL REJECTION

In accordance with MPEP 706.07(d) and the agreement today, the applicant respectfully

requests that the Examiner withdraw the final rejection as premature pending consideration of prior art which relates to thermoelectric devices (Peltier-Seebeck devices).

Signed: 

Craig W. Barber
